

INSTRUCTIONS FOR AUTHORS

The aim and purpose of the journal

Techno Science is an international scientific journal from the area of technical sciences. It is published twice a year.

General provisions

Each paper is evaluated, so that it corresponds to the intention of the journal, and then reviewed. The authors are responsible for the content and ethics of everything written in the paper. The authors can be requested to give a specific statement that the paper has not been published in another publication. Techno Science does not question the authors' copyright over the published papers, but preserves the right of distribution in accordance with the legal provisions, and without further consultation with the authors, with which the authors agree when submitting the paper. Authors are not entitled to re-release/reprint the paper, apart from a copy of the printed journal. It is necessary to include the corresponding author's information, his or her e-mail address and the institutional e-mail address.

Preparation of attachments

It is recommended that the authors keep the structure of the journal, including: the Abstract, Introduction, Problem and Aim, Methods, Results, Discussion, Conclusion and References. This recommendation does not bind the authors but helps ease the publishing process and understanding of the subject matter. The attachments are not limited in size, but should not exceed 7 pages in the journal. The text font is Times New Roman 11 pt with 1.15 line spacing, created in two columns. The expected size of the paper is 12 000 (exceptionally 14 000) characters without tables and images. All tables should be standardised (e.g. MS Excel), and the images, photographs and other illustrations should be in a vector format or a high quality printing resolution (600 dpi). Before printing, the journal has the right to edit the illustration. In such instances, the author will be consulted or informed via e-mail.

References

The reference list, as well as other forms of text formatting, will be accepted if they are made in accordance with the APA standard (American Psychological Association) and translated into English with an indication of the original language in the brackets. The attachment is sent exclusively in electronic form (e-mail, CD, disc, etc.)

Language used in the attachments

Techno Science publishes papers in English with abstracts in Bosnian. The abstract is delivered in Bosnian and English.

Note

Attachments that do not meet the requirements, or need to be consulted upon, will be returned to the author with a warning containing the actions that need to be undertaken.
